CITIZEN Sizing Guide
Strap with Adjustable Clasp

Slide strap from clasp holder

Open clasp by pushing the top of the clasp tube away from clasp assembly

Push strap locking pin out of clasp tube assembly. Note, this pin may already be out of the clasp tube

Insert strap into clasp tube. Adjust to correct length. Then locate the nearest adjustment hole in the strap.

Insert strap locking pin into the hole, ensuring the pin goes all the way through the strap

Strap is now locked in place.
